Space-Saving Design: Our injection flush moulded technology ensures the boot is no wider than the RJ45 connector itself. This slimline profile is essential for high-density setups, allowing you to easily fit cables into side-by-side ports or patch panels without overcrowding.

Snagless Protection: Say goodbye to broken plastic clips. The snagless boot design protects the connector clip, ensuring it stays secure and functional for years to come.

Enhanced Durability: Features built-in strain relief that reduces cable stress and prevents kinking, protecting your hardware and ensuring a longer, more professional lifespan for your cable.
