

connektgear 1m Britmac Mains Power Cable - Britmac Plug to C19 Socket

Brand: connektgear | Product Code: 92-0371

DESCRIPTION

The connektgear Britmac plug to C19 power cable is a specialised solution designed for professional environments where power security and circuit integrity are paramount. Britmac plugs are engineered to prevent the unauthorised or accidental connection of standard domestic appliances to sensitive power circuits. These are primarily used in offices and data centres to provide dedicated, secure power for servers, high-performance workstations, and critical IT networking equipment. This cable connects a Britmac plug to a C19 female socket, providing a stable power link that ensures your high-current equipment remains connected to the intended, protected power supply.

PACKAGING SPECIFICATIONS

Box Quantity:	10
