

connektgear 20m USB 2 Active Extension Cable Type A Male to Type A Female

Brand: connektgear | Product Code: 26-2932

DESCRIPTION

Stop worrying about signal drop-off with our USB 2.0 Active Extension Cable. Unlike standard extension leads, this cable features a built-in signal booster chip that regenerates the USB signal. This ensures your data remains stable and your power supply stays consistent, even over longer distances. Whether you are trying to reach the back of a PC, connecting a printer in a different corner of the office, or setting up AV equipment, this active cable provides the reliability you need to avoid the performance degradation common in standard, passive extensions.

PRODUCT DETAILS

- 480Mbps transmission speed

PACKAGING SPECIFICATIONS
